EDUCATION

Bachelor of Technology, Guru Gobind Singh Indraprastha University — **Expected 2027**
BTech in Artificial Intelligence & Data Science: **CGPA – 8.98**
Class XII (CBSE) – St. Michael's Sr. Sec. School | 76.2% — 2023
Class X (CBSE) – St. Michael's Sr. Sec. School | 96.8% — 2021

SKILLS

Languages	Python, SQL, Advanced Excel,
Tools	MySQL, GitHub, Postman, Jupyter Notebook
ML/AI	TensorFlow, PyTorch, Scikit-learn, OpenCV, MediaPipe
Data Analytics	Pandas, NumPy, Matplotlib, Seaborn, Power BI, Tableau
Platforms	Microsoft Azure, GCP, Kaggle, Vercel

PROJECTS

AI Based Posture Analysis (Physiotherapy Assistance) System
(Python - OpenCV - Mediapipe - Computer Vision) **GitHub**

- Designed and implemented real-time posture detection and joint-angle calculation using MediaPipe landmarks with **~90% pose tracking** accuracy in controlled environments.
- Improved exercise form and movement accuracy by **~25–30%** through live visual feedback and automated repetition counting during test sessions.
- Engineered rep counting feature, enabling the system to **support 10+ exercises**, providing targeted feedback, and helping users achieve optimal form.

Cryptocurrency Market Analysis Using Machine Learning **GitHub**
(Python - Market Forecasting - Regression - Exploratory Data Analysis)

- Performed EDA on historical crypto price, volume, and volatility data; built interactive **Power BI dashboards** to visualize trends and support analytical decision-making.
- Analyzed feature correlations and trained ML models to improve short-term Bitcoin price prediction accuracy by **~60–75%**.
- Identified high-impact technical indicators improving short-term forecasting **stability by ~20%** compared to baseline regression models.

EXPERIENCE & CERTIFICATIONS

Microsoft Learn Student Ambassador | Jun 2024 – Present

- Promoted **Microsoft Azure and AI technologies** through peer learning, workshops, and community engagement.
- Microsoft Certified: Azure AI Engineer Associate, Data Scientist Associate, Fabric Analytics Associate

GirlScript Summer of Code (GSSoC) | Oct 2024 – Nov 2024

- Contributed to **open-source projects** through development, debugging, documentation, and API testing
- API Testing: Postman API Fundamentals Student Expert

ACHIEVEMENTS

- **Winner** of **Chandigarh University** Zero-to-One National Hackathon; Secured 1st place among 600+ teams for developing an innovative AI-driven solution. **ANI News - MadeInMedia - Linkedin**
- **Runner-Up** of **IIIT Delhi** HackLLM Hackathon; Awarded for delivering a high-impact ML prototype under strict time constraints. **Linkedin**
- Finalist in **5+ National-Level Hackathons**; Consistently recognized for excellence in AI, Machine Learning, Computer Vision, and real-world problem solving.
